Affordable, enterprise-class security

in seven easy steps

Take your first step today.

"Easy to use...really slick...perfect for small and midsize companies...RSA has struck gold."

Secure Enterprise Magazine

"...RSA has achieved a major milestone: delivering easily-managed strong authentication for small - and medium-sized networks."

SC Magazine, January 2006

"...RSA has done a fantastic job reducing the learning curve and simplifying the process of installing agents and protecting web pages."

SC Magazine, January 2006

Your business resources need world-class protection. Now the RSA SecurID® Appliance makes it possible. It's quick to deploy. Yet extremely powerful.

So you can forget simple passwords and rely on RSA Security's robust two-factor authentication to give you confidence about your user identities. Give authorised users secure, instant access - wherever they are - and keep unauthorised users out.

Perfect for small and midsize businesses

Specifically designed for small to medium businesses, this streamlined box makes it easy to move up to enterprise-grade authentication security and say goodbye to vulnerable passwords.

High security. Low total cost of ownership.

RSA Security's SecurID Appliance is simple. It places no strain on IT resources. Yet it gives your business the full protection of RSA Security's industry-leading authentication – as used by the world's foremost companies to secure their mission-critical data.

Pre-loaded in a streamlined box

It works with all the leading third-party products, including Cisco, Juniper, Check Point, Microsoft and more. And it comes pre-installed and pre-loaded with award-winning RSA Authentication Manager software. All you need to do is choose from our 10, 25, 50, 100, 150 or 250 user bundles.

It's the advanced yet practical security solution you've been waiting for. And it takes just 15 minutes to deploy.
